

The University of South Alabama is a comprehensive, global research and teaching university that provides students a quality education in business, the liberal arts, education, engineering, computing, the sciences and healthcare.

USA's commitment to student success includes small class sizes and hands-on research opportunities in more than 125 undergraduate and graduate degree programs. USA offers early acceptance programs that provide highly qualified high school seniors with conditional acceptance into the College of Medicine, College of Nursing, Department of Physical Therapy or Department of Psychology.

Students enjoy an outstanding experience on the tree-shaded main campus, which has been transformed with new facilities and resources for teaching, housing and recreation, health sciences, the arts, engineering, computer science and athletics. The landscape includes walking paths and groves of pine trees, miles of bike trails, indoor and outdoor pools and a disc golf course. In athletics, the USA Jaguars field 17 NCAA Division I teams that compete in the Sun Belt Conference.

USA Health is region's only academic health system, serving the area through University Hospital, Children's & Women's Hospital, the Mitchell Cancer Institute, medical offices staffed by clinical faculty from the College of Medicine and a growing number of community-based physicians and providers. Students receive an exceptional medical education through the colleges of Medicine, Allied Health Professions, and Nursing.
